

The Pilot Club of Tallahassee was chartered in 1935 and is a part of Pilot International, a worldwide service organization founded in 1921. Pilot derives its name from the riverboat pilots who were able to steer a “true course” navigating through the rough waters of life. Our mission is to influence positive change in communities throughout the world.

Pilot Club members volunteer in many areas of charitable service and support the overall focus of Pilot International.

- Advocating Leadership and Service in Youth and Young Adults
- Promoting Brain Safety and Health
- Caring and Supporting Families in Time of Need

Our local service includes volunteering with the Alzheimer Project, co-sponsoring with Alzheimer’s Project and Leon County Sheriff’s Office with Project Lifesaver tracking bracelets, volunteering with the Alzheimer’s Association, educating young children on how to protect their brain through a puppet show program known as BrainMinders® and distributing and fitting free bicycle helmets. And we have a program for seniors, BrainO®, to help them keep their brains sharp. We also support Gretchen Everhart School as a LCS partner, the Chamber of Commerce’s Classroom Connection (Riley Elementary School), sponsorship of the Anchor Clubs at Leon High School and Chiles High School, Salvation Army, Honor Flight, Southern Scholarship Foundation’s Pilot Scholarship House at FSU, and others.
